

## Hardcap Aerolite®

AAF000-001-1AN / AAF000-002-1AN / AAG000-001-1AN / AAG000-002-1AN

### Short Peak (50mm)

Black | AAF000-001-1AN

Navy | AAF000-002-1AN

### Micro Peak (25mm)

Black | AAG000-001-1AN

Navy | AAG000-002-1AN

#### DESCRIPTION

The HardCap AeroLite® is the lightest full shell bump cap available on the market weighing less than 135g without compromising on performance.

A direct evolution of the popular HardCap A1+™, the HardCap AeroLite® represents the forefront of innovation within the JSP® head protection range, providing complete protection in its category.

#### SAFETY STANDARDS

- EN 352-3
- EN 812

#### FEATURES

- Underneath the sleek textile cover is a tough HDPE shell and a lightweight EPP impact liner, carefully designed to allow for flexibility and comfort for the wearer.
- Replaceable padding to provide extra comfort and a better fit. The comfort pad and sweatband are moisture wicking to move sweat away from the skin.
- The cover has large open weave panels allowing the easy transfer of cool air. This substantially reduces heat build-up and discomfort for the wearer, especially when worn over long periods.
- Get your logo embroidered onto the front or back of your HardCap Aerolite®.
- Large reflective areas on the side panels of the cover and reflective piping around the peak provide extra visibility and improved safety in lowlight conditions.
- Available in black or navy, with either a 50mm or 25mm peak. The longer peak provides better shade and the shorter peak provides improved vision when looking upward.
- The cover is removable and machine washable. The sweatband and padding are treated with Polygiene®, which reduces skin irritations, odours and wash cycles, and prolongs the lifetime of the Embroidery Logos fabrics.
- Heat transfer your logo onto either the front, back or side of your HardCap Aerolite.

## SPECIFICATIONS

 Peak  
5cm (short peak)  
2.5cm (micro peak)

 Maximum Temperature  
+50°C

 HDPE Shell  
Yes

 Slip Ratchet  
Slip

 Reflective Option  
Standard

 BSI Kitemark  
Yes

 Product Weight  
127g

 Size  
53-64cm

 Impact Resistance  
12 Joules x 4

 Minimum Temperature  
-40°C

 Recyclable  
Shell

 Ventilation  
Yes

 Anti-bacterial Coating  
Polygiene®

 Machine Washable At  
Max 30°C

 Optional 2 Point chinstrap  
(EN397 & EN 812 compliant)  
Optional
