

KARABINER TRIPLE ACTION - STEEL

PART CODE: **KTASA26**

The LINQ range of karabiners offer exceptional strength, manufactured under stringent quality control conditions. The triple action self-closing mechanism is designed to reduce the probability of involuntary opening or release. High strength steel construction provides robust and safe connection.

PRODUCT FEATURES >

- High tensile drop forged steel.
- Triple action and self-closing mechanism.
- Sleek design minimises snagging and damage to harness and lanyard webbing.
- >6kN gate strength. Top and side.
- Stringent ISO 10333-5 batch testing conducted to international standards.
- Black electrophoresis finish.

PRODUCT DETAILS >

- **Opening:** 26mm
- **Weight:** 261gm
- **MBS:** 30kN
- **Gate:** 6kN
- **Width:** 85mm
- **Length:** 112mm

APPLICATIONS >

Multiple applications: Agricultural, Chemical, Construction, Manufacturing, Mining Oil and Gas, Transportation, Utilities, Marine.

STANDARDS >

Conforms to and accepted under AS 1891.5:2020.
Min gate strength requirement of >6kN.

Reading of LINQ instruction manual prior to use is mandatory. Description and specification subject to change without notice If in doubt please contact the LINQ helpline.*
