PRATT WALL MOUNTED EYE & FACE WASH WITH BOWL & FOOT TREADLE

COMPLIANCE

All PRATT emergency showers, and eye wash stations are designed and manufactured in an ISO 9001 accredited facility, with full conformance to both AS4775 and ANSI Z358.1 standard.

AEROSTREAM technology delivers a gentle cascade of soft flow water to flush away any hazardous materials from the eyes and face.

SWIRLTECH technology delivers a precise pattern and controlled flow rate of a large volume of flushing fluid, ensuring optimum decontamination when its needed most.

FCR/FCA all showers & eyewashes come standard with Flow Control Regulators and/or Flow Control Adjuster. The shower FCR assists for simultaneous flow between the shower and eyewash to ensure minimum flow outputs are not compromised. The eyewash incorporates our FCA, allowing for the fine tuning of flow output.
