

# PRATT COMBINATION SHOWER WITH SINGLE NOZZLE EYE WASH & FOOT TREADLE - NO BOWL

This combination model is constructed mainly of 304 stainless steel, with 316 stainless steel ball valves and threaded components, and two AES plastic eye wash nozzles including single aerators and dust cap. This model does not include a bowl assembly. It is more suited to outdoors as the waste eye wash water falls directly onto the floor surface.

The shower outlet also includes a 90LPM flow regulator, and the eye wash incorporates individual flow adjustment to provide a balanced flow output. The eye wash can be activated by either hand or foot.

**SHOWER HEAD**

**FLOW REGULATOR**

**EYE WASH NOZZLES**

**AERATOR ASSEMBLY**

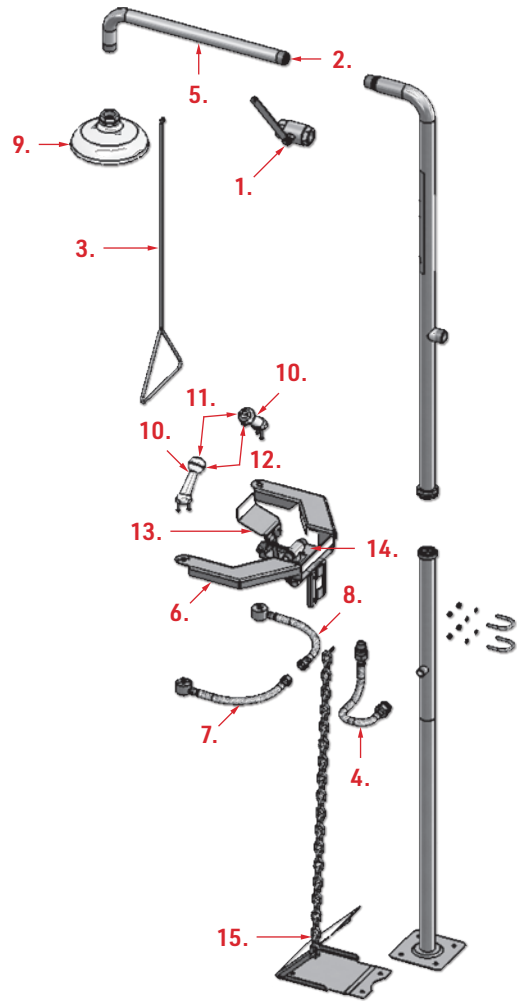

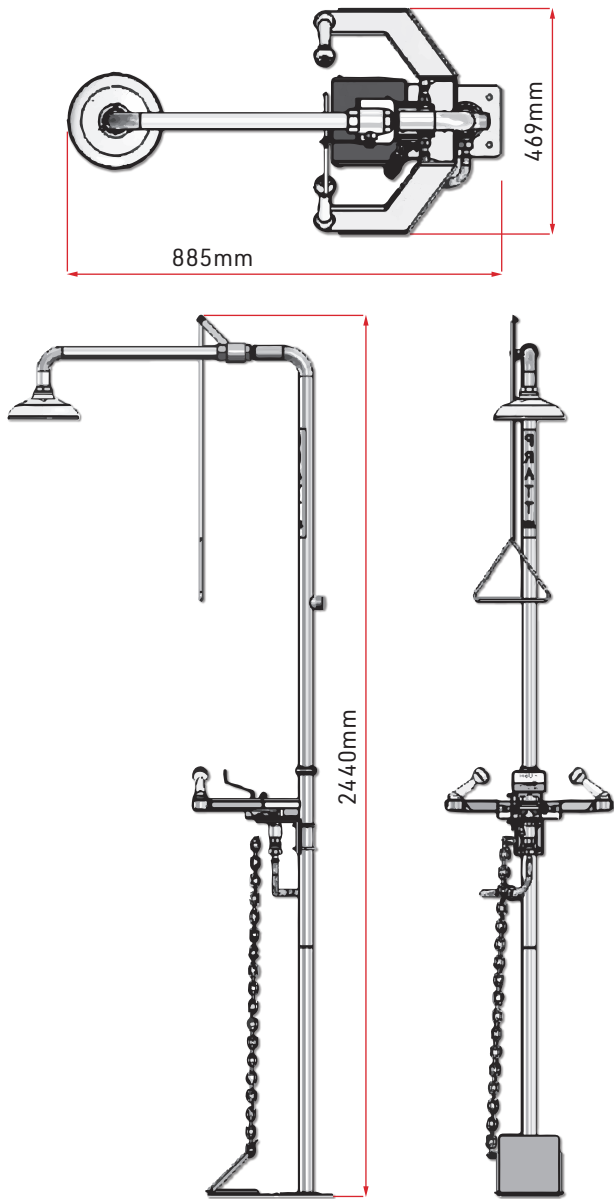

**FOOT TREADLE**

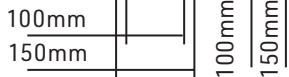

## OPTIONAL ACCESSORIES:

- 316 Stainless Steel Shower Head.
