HEARING LOSS PREVENTION

Easy prevention measures, including hearing protection, avert permanent and debilitating hearing loss.

Hearing loss due to industrial noise is one of the most widespread, yet preventable work place injuries. Significant, irreversible hearing loss can occur after being subjected continually to noise from machinery, day-to-day activities, tools and traffic.

Research and development by ProChoice has resulted in hearing protection devices that offer the most effective protection available.

INDUSTRY APPLICATIONS

- Mining
- Engineering
- Manufacturing
- Wood Working
- Laboratory work
- Construction
- Fabrication
- Automotive
- Cleaning and Industrial
- General Purpose Use
