RONSTA
KNIVES

A dual action safety knife that allows the blade to retract once pressure is released from the blade, even if the trigger remains in the forward position. This smart technology is designed to reduce hand, arm, and leg injuries in your workplace. The quick and easy blade change means less downtime and no tools required.

DUAL ACTION

METAL HOUSING

CERAMIC BLADE

FEATURES AND BENEFITS

- Ceramic blade, lasts around 10 x longer than metal blades.
- Automatic retraction, even when thumb remains on trigger.
- Ambidextrous.
- Long-lasting metal housing.
- Anti-slip rubber handle.
- Zinc-alloy texture.
- The easy change button between the trigger and the nose allows for easy blade change with no tools required.
- Lock-out dial ensures the blade is parked and cannot accidentally be triggered when not in use.

APPLICATIONS

- Cardboard
- Film/Tape
- Rubber
- Strapping
